

"Panteya®" Evalar, tablets

The complex is based on the extract of marals' antlers (new horns), containing a wide range of biologically active substances and reinforced with zinc, for active lifestyle at any age. Marals' antlers (new horns) are a valuable natural raw material, unsurpassed in its unique biological ability to heal the human body.

Panthocrine Panteya has a mild and physiologically beneficial effect of increasing physical and mental capacities, improving the body's resistance to the effects of various physical or biological stressors.

The extract of marals' antlers, reinforced with zinc, promotes:

Increasing energy and efficiency

Strengthening the immune system

Normal sexual function

Ingredients: Extract of Maral Antlers, Zinc Lactate.

"SUGAR BALANCER®" Evalar

Non-hormonal herbal remedy for maintaining the normal sugar level. The composition includes inulin and gymnema. Gymnema slows down the absorption of glucose, lowers blood sugar levels to normal values, reduces the craving for sweets. Inulin activates the metabolism and fat burning processes associated with the absorption of glucose, and maintains the normal level of sugar.

Ingredients: Inulin, Gymnema Extract.

Femiwell ® Bio Evalar

Herbal non-hormonal product with standard 20 mg dose of black cohosh extract that helps reduce the effects of menopause

The main reason for aging in women is a decrease in the production of female sex hormones. The most important youth hormone for a woman is estrogen. From the age of 30, the production of estrogen decreases. The metabolism slows down, the face and body start to change, the process of aging begins. Skin and muscles lose their firmness and elasticity, wrinkles appear and deepen, while the figure gains in fat and loses shape. The solution is offered by phytoestrogens, substances that are contained in plants, such as black cohosh (*Cimicifuga racemosa*), and similar to female sex hormones.

In Western countries, where it is normal to take phytoestrogens from the age of 40, women at 50 look younger than many Russian women at 40! It is no coincidence that biologically active food supplements with phytoestrogens of black cohosh are the most popular age management product.

Black cohosh phytoestrogens included in the composition of Ci-Clim BIO help to eliminate the symptoms of estrogen deficiency in women during menopause. Ci-Clim BIO phytoestrogens also improve overall health, lighten the mood and help to slow down hormonal aging associated with a decrease in estrogen levels in women aged 40 to 55 years.

Phytoestrogens indirectly affect the synthesis of collagen, elastin, and hyaluronic acid, while contributing to the improvement of general well-being and mood, which is undoubtedly reflected in facial features. After all, beauty and health are inseparable!

Even if we have no power over time, we are able to preserve our youth, beauty and health.

Fitoax ® Evalar

Fruit chewable tablets are pleasant to taste and do not require washing down. They are convenient in any situation, especially when traveling.

Ingredients: Apricots, Extracts of Senna, Plantain, and Dill.

Hepatrin Evalar

Triple protection for the liver.

Only Hepatrin contains three important natural components for liver protection:

Essential phospholipids promote the natural renewal of liver cells.

Milk thistle contains silymarin, which protects the liver from toxins and the negative effects of free radicals.

Artichoke regulates the production of bile and its outflow.

One remedy instead of three: Hepatrin!

Ingredients: Lecithin, Extracts of Milk Thistle, Artichoke, Vitamin E, Vitamin B6, Thiamine, Riboflavin.

Indol 3 Forte Evalar

Non-hormonal product of natural origin helps maintain breast health. Enhanced action thanks to broccoli concentrate, which increases the effect of indole-3-carbinol up to 80 times. 1 100 mg of highly purified indole-3-carbinol in each capsule, as in the imported analogue. The best price, two times more profitable than the analogue. Convenient treatment schedule: 1 capsule per day.

Ingredients: Indole-3-Carbinol, Broccoli Concentrate.

Lipotropic factor Evalar, tablets

Three lipotropic components: choline, inositol, and methionine promote the removal of fats from the liver, preventing the accumulation of fats in the body, and eliminating the toxins from fat burning. Triple benefit for the liver!

Ingredients: L-Methionine, Inositol, Choline.

Mumie gold ®

Oil of mountains.

100% pure Altai mummy, prepared according to the original technology making it possible to maximally preserve active ingredients: vitamins, amino acids and more than 30 micro- and macronutrients with high bioavailability.

Ingredients: Purified Mumijo.

Ovesol® Evalar

OVESOL is a modern natural product for gently cleansing the liver from toxins. OVESOL literally rinses the liver, helping prevent bile stagnation, which reduces the risk of gallstones. Helps cleanse the liver in just 20 days.

Ingredients: Extracts of Oats, Immortelle, Mint, Turmeric.
